What To Expect On Your Journey

» 01 CULTURE & HERITAGE

There's no better way to experience a region than by immersing yourself in local culture. Gain a genuine appreciation of a place, its people and landscapes by learning directly from those who truly understand it. Meet and stay with locals, explore historical sites and marketplaces, and eat traditional delicacies for a sincere, rich experience.

» 02 WILDLIFE & WILDERNESS

Getting up close and personal with wildlife that you've only seen in magazines can be a touching experience. Witness animals in their natural environment – often far-flung, breathtaking backdrops.

By exploring mountains, lakes, gorges, plains and rainforests, you'll feel an honest connection to nature and her wild inhabitants.

» 03 ACTIVE ADVENTURES

Our adventure journeys are created to offer a rewarding journey without needing a wealth of previous travel experience. Enjoy all the comforts and conveniences such as exceptional cuisine and friendly porters to carry and transfer your luggage. Many of our adventures could be found in a 'hard adventure' category, but physical exertion is not the aim and you can rest assured there'll be a comfortable night's sleep at the end of an active day.

Welcome to KENYA

The African Elephant is the largest walking animal on earth and can weigh in at over six tonnes. There are two distinct sub species of African elephant, the Savanna elephant is larger and lives primarily in grassland habitats and the Forest Elephant which is smaller and lives primarily in the forests of the Congo Basin. Combined, both species are found in 37 African Countries and there are an estimated 415,000 in the wild. Due to excessive poaching for their Ivory tusks, they are listed by World Wildlife Foundation as vulnerable.

KENYA

For sheer weight of numbers and species of animals and birdlife, the wildlife reserves of Kenya and Tanzania are arguably the world's best and most rewarding. The open grasslands offer excellent game viewing opportunities and the phenomena of the annual migration of wildebeest and zebra between the Serengeti National park in Tanzania and the Massai Mara Game Reserve in Kenya, is one of the world's most remarkable sights.
